

March 27, 1956

Mr. Orville Isom
Attorney-at-Law
Bank of Southern Utah Bldg.
Cedar City, Utah

Dear Mr. Isom:

RE: COAL CREEK DISTRIBUTION

This will acknowledge receipt of your letter dated March 26, 1956 in which you propose certain divisions of the winter water on Coal Creek.

Members of this office will be in Cedar City on April 3, 1956 and it would be appreciated if we could meet with you in the Municipal Building at approximately 4:30 p.m. on the above date at which time we will discuss with you the matter of the winter water on Coal Creek.

Yours very truly,

Joseph M. Tracy

Re: Cedar Valley Gen. Adj.

Dear Mr. Tracy:

An attempt is now being made by you to adjudicate and allocate the winter water from Coal Creek to the various claimants to this water. All of the following named irrigation companies have agreed amongst themselves as to how this winter water could be divided and I believe this plan has merit. The following is the proposed division:

South and West Field Irr, Co, and Cedar City Corporation.....	2 c.f.s.
Old Fort and Old Field	1
Union Field	2.5
*East Extension Irr. Co.	2.5
North Field Irrigation Co.	2.5
Northwest Field Irr. Co.	2

* The East Extension Irr. Co. now owns half of the water and water rights of what was formerly North Field Irr. Co.

I am advised that all the Boards of these companies will sign anything thing you require effecting a division of this winter water as above set forth.

I would appreciate hearing from you relative to this proposal.

Yours very truly,

Orville Isom
